PROFESSIONAL SUMMARY

Driven and curious B.Tech Computer Science student with a focus on Artificial Intelligence and Machine Learning, currently in the second year. Interested in exploring modern technologies and strengthening core programming and development skills. A quick learner with a logical approach to problem-solving, team-oriented attitude, and basic experience in coding and web development.

EDUCATION

College of Engineering Roorkee
Bachelor of Technology in Computer Science and Engineering;

Roorkee, India
2023 – 2027 (Expected)

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python
- **Database Management:** MySQL
- **Web Development:** HTML, CSS, JavaScript
- **Tools & Technologies:** Git, GitHub, VS Code, Canva
- **Core Concepts:** Data Structures & Algorithms (basic), OOP concepts

EXPERIENCE

Web Development Intern — CodeSoft

Virtual | Jun 2024 – Jul 2024

- Developed responsive and interactive web applications using HTML, CSS, and JavaScript while enhancing UI/UX design and frontend development skills during a 4-week internship.

Python Programming Intern — CodeAlpha

Virtual | Jul 2025 – Aug 2025

- Developed Python applications, improved problem-solving and debugging skills, and gained hands-on experience with file handling, automation, and OOP concepts during the internship.

C/C++ Programming Intern — Alfido Tech

Virtual | Jul 2025 – Aug 2025

- Developed C/C++ projects, applied OOP and Data Structures concepts, and gained practical experience in problem-solving and software development workflows during the internship

Summer Training Program | College of Engineering Roorkee

Offline | Jun 2025 – Jul 2025

- Completed hands-on training in DSA, SQL, and Web Development, gaining experience in database management, responsive web development, and problem-solving.

PROJECTS

Contact Book Application | C++ Stack

- Built a C++ Contact Book application with contact management features while applying Data Structures and file handling concepts.

Personal Portfolio Website | HTML, CSS, JavaScript

- Developed a responsive portfolio website with modern UI, animations, and cross-device optimization using HTML, CSS, and JavaScript.

Bluetooth-Controlled Car | IoT, Arduino

- Designed and developed an IoT-based Bluetooth-controlled robotic car using Arduino, enabling wireless movement control through a mobile device.

Smart Waste Management System | IoT, Sensors

- Developed an IoT-based smart waste monitoring system using ultrasonic sensors for real-time garbage level detection and automated waste management.

Successfully developed 10+ projects utilizing HTML, CSS, JavaScript, Python and IoT technologies, enhancing expertise in software development and problem-solving.

ACHIEVEMENTS

- Appointed as **Placement Coordinator**, facilitating communication between students and recruiters and supporting placement activities.
- Served as **Outreach Member and Discipline In-Charge** of the Tinkering Lab, contributing to student engagement and event coordination.
- Managed and organized events as **Event Manager** in the Linguistic Committee, ensuring smooth execution and participant coordination.
- Demonstrated leadership, teamwork, and organizational skills through active involvement in academic and co-curricular activities.
